Hi Tim,

LSMGO is not available locally and filing the fuel non-availability form is the only option. We have filed the non-availability form in the past and it is not an issue.

Hi Austin,

i got a quote from my supplier, so its a bit confusing as it seems possible. have you been successful in applying for "fuel oil non-availability report" recently?

thanks,

Good day Tim,

At the moment terminal is indicating the earliest berthing would be Monday and the vsl will need about 48 hours alongside to load.

Unfortunately there are no bunker suppliers in Prince Rupert, however, if the runs out of LSMGO it can submit a "fuel oil non-availability report" and use an alternative fuel onboard. Form is attached for your reference.

Hi,

thanks below. is it possible to get more accurate info on berthing? she's going to be tight on LSGO and we may have to supply some before berthing (unfortunatly).

please advise procedure/costs involved for bunkering her LSGO before berthing.

thanks.
